### **DETAILED ACTION**

1. This communication is in response to Applicant's amendment filed on July 5, 2005.

Amendments to claims 14 and 18 have been entered. Claims 12-19 are pending in this application.

#### ***Allowable Subject Matter***

2. The following is a statement of reasons for the indication of allowable subject matter:

3. The prior art of record (Anderson US Pat. No. 6,058,380) teaches a method, a computing system and a program storage device for operating an account payable computing system, including the steps of preprocessing before introduction into an accounts payable data base original electronic invoices received from a vendor to identify duplicate invoices, identifying invoices having a same vendor invoice designation, same purchase order number, and same item number, identifying duplicate invoices and introducing said original electronic invoices not identified as duplicate invoices into said accounts payable data base.

Even though, the prior art of record teaches a medical record management system and process for performing the above mentioned steps, the prior art of record fails to teach a method, a computing system and a program storage device for operating an account payable computing system, including the steps of calculating a net sum amount of items on invoices identified as having same vendor invoice designation, same purchase order number, same item number, identifying as a duplicate invoice an original electronic invoice for which said net sum amount is greater than zero and automatically communicating a duplicate invoice rejection transaction back to the vendor. For these reasons claims 12, 14-16, 18 and 19 are deemed to be allowable over the prior art of record, and claims 13 and 17 are allowed by dependency.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled Comments on Statement of Reasons for allowance.

***Conclusion***
